Are you looking for more space for your growing family ... here is a beautiful 5 bedroom home with 4 baths and a ton of room for storage with terrific location, close to schools, arena and swimming pool. A beautiful layout allows for plenty of space to gather as a family as well, lots of private spaces for those that want to be alone. The bottom 4th level has a large area for kids to play without the noise interfering with the rest of the house and don't worry about it being too cold down there because this home has a wood basement with infloor heating and feels as good as the rest of the house. The spacious main floor laundry and extra pantry storage is a wife's dream! Outside, the 16x20 shop is a great space for tinkering, building or creating; a special sheshed or mancave space! This home needs to be seen to be appreciated and has so much to offer.
